Fall 2011 Campaign

**“Ending School Corporal Punishment Act,” HR 3027, will ban striking students for “gaining their obedience.”
Please support!**

America remains unqualified to do what is considered honorable among men and women of integrity in all nations, that is, to rescue children from “authoritarian abuse,” because America is the greatest purveyor of this peculiar social-injustice.

There are three kinds of people that engage in or consent to pain-based behavior management of children: the ill-informed, the unstable, the undisciplined.

Organizations that we call on in support of replacing “school corporal punishment” with effective kinder models of child-training, those being used in top-performing American schools where hitting is prohibited:

Like the NAACP, the **National Lieutenant Governors Association (NLGA)** and the **National Association of Pediatric Nurse Practitioners (NAPNAP)**, have made statements against the practice of striking students for gaining their obedience. ***Action is requested for giving your words meaning.***

The National Lieutenant Governors Association favors a ban on the practice of corporal punishment on schoolchildren. NLGA statement, March 2011:

The National Association of Pediatric Nurse Practitioners favors a ban on the practice of corporally punishing children. NAPNAP statement, August 2011:
