Dear Sir:

Greetings of Peace!

I have already received the revised copies of the "Plain Talk" booklets that you have sent. I am so grateful for this opportunity that you have favored my most humble request. I have presented the booklets to our Principal and she was very much interested in acquiring the copies of "Plain Talk". It was also discussed in our meeting that the parents of our students should also be given copies of the booklets. The booklets will be distributed in one of our organized "Parenting Seminars" which is scheduled in a couple of months. In connection with this, I am requesting you to send us one thousand five hundred (1,500) copies of the booklet. I am expecting a very positive turn out after the parents would have the chance to read the booklet. It is also one of my plans that we are going to start an organization just like yours here in our locality, which would eventually be a national organization here in the Philippines given your most highly respected consent.

I am hoping for a very favorable response from you and your other colleagues on this matter. Thank you and more power in whatever undertakings that you will have in the future.

Sincerely,

Ramon M. Fernandez III
Guidance Counselor
